

Does Your Technology Need a Hand?

Is it time to get control of your technology? Is your in-house IT team struggling to keep up with your customer demands? Could you use some outside help to move things forward?

If so, let's talk.

We're Logistics Technology HQ, a technology company built by logistics people. Our team has over 50 years of combined experience solving these issues in the logistics industry. We are a managed service provider that can provide complete IT solutions or work with your existing team to make things happen.

Complete IT Solutions

If you need a team of experienced logistics IT experts on your side, we're here for you.

- Virtual CIO / CTO services developed with your leadership team to identify opportunities and risk
- Skilled fractional resources for TMS management, training, data analytics, reporting, network and core business systems support
- Action planning with key stakeholders
- Phone, e-mail, and emergency 24x7 support

Supplementing Your IT Team

If your IT team needs a little help coming off the bench, send us in.

- TMS integration and updates
- Custom reporting and data analytics
- Project management
- Custom software development and customization
- Continuous improvement of existing process
- Training and compliance support tools
- Network design and management
- Microsoft software support
- Phone system management

If you're ready for your technology to start working for your organization, you're ready to work with us. Reach out today and let's get started.
